MULTISENSORY TEACHING of Basic Language Skills

FOURTH EDITION

JUDITH R. BIRSH
SUZANNE CARREKER

Foreword by Louisa C. Moats
The individuals described in this book are composites or real people whose situations are masked and are based on the authors’ experiences. In all instances, names and identifying details have been changed to protect confidentiality.

Purchasers of Multisensory Teaching of Basic Language Skills, Fourth Edition, are granted permission to download, print, and photocopy the appendices in the Online Companion Materials available at www.brookespublishing.com/birshcarreker/materials for educational purposes. These appendices may not be reproduced to generate revenue for any program or individual. Unauthorized use beyond this privilege may be prosecutable under federal law. You will see the copyright protection notice at the bottom of each downloadable and photocopiable page.

Library of Congress Cataloging-in-Publication Data

Title: Multisensory teaching of basic language skills / edited by Judith R. Birsh, Ed.D., Independent Literacy Consultant, Certified Academic Language Therapist (CALT), Qualified Instructor (QI), New York, New York, and Suzanne Carreker, Ph.D., CALT-QI, Principal Educational Content Lead, Lexia Learning Systems, Concord, Massachusetts, with invited contributors.
Classification: LCC LC4708.85 (ebook) | LCC LC4708.85 .M85 2018 (print) | DDC 371.91/44—dc23 LC record available at https://lccn.loc.gov/2018005328

British Library Cataloguing in Publication data are available from the British Library.

Contents

Why Phonics Works ........................................... 49
  Efficacy of Structured Literacy Instruction ............... 53
  Evidence From Neuroscience ................................ 55
Efficacy of Simultaneous Multisensory Instructional Strategies ..................................... 56
  Efficacy of Multisensory Strategies: Studies of Cognition .............................................. 57
  Neuroscience Offers Insights Into Reading and Multisensory Processing ......................... 59
Implications for Future Research and Practice:
  A Two-Way Street ........................................... 68
  Closing Thoughts: Multisensory Structured Literacy ...................................................... 70
  Online Companion Materials ...................................... 70
  Knowledge and Skill Assessment ..................................... 70
  References .................................................. 72

Section II Pre-reading/Literacy Skills

Chapter 3 Oral Language Development and Its Relationship to Literacy ........................................... 82
  Lydia H. Soifer

  Learning Objectives ........................................... 82
  Language: A Dynamic, Rule-Governed Process .......... 84
  Oral–Written Language Connection ...................... 85
  Oral–Written Language Differences ..................... 87
  Components of Language ..................................... 89
    Language Form .............................................. 89
    Language Content ......................................... 105
    Language Use, or Pragmatics ........................................ 110
  Executive Function, Working Memory, Language, and Literacy ........................................... 118
  Dynamic Nature of Classroom Language ................ 121
  Closing Thoughts: Oral Language and Literacy ....... 127
  Online Companion Materials ...................................... 127
  Knowledge and Skill Assessment ................................... 127
  References .................................................. 128

Chapter 4 Pre-Kindergarten Literacy ...................................... 140
  Eve Robinson, Carolyn DeVito, and Gloria Trabucco

  Learning Objectives ........................................... 140
  Emergent Literacy ............................................. 141
    Why Emergent Literacy Matters ............................ 141
    Emergent Literacy and the Home Environment .......... 141
    Emergent Literacy and the Early Childhood Educator .............................................. 142
  The Importance of the Classroom Environment .......... 142
    The Physical Space .......................................... 143
    Learning Centers: The Foundation of Preschool Classrooms ........................................... 143
  Evidence-Based Multisensory Activities That Develop Foundational Literacy Skills ................ 145
    Oral Language .............................................. 145
    Phonological Awareness .................................... 149
    Concepts of Print ........................................... 152

Letters, Sounds, and the Alphabetic Principle .......... 154
Writing Development .................................... 155
A Project-Based Approach to Developing Emergent Literacy .............................. 157
Autumn or the Harvest .................................. 157
Assessment of Learning in Preschool: Formal and Informal Systems ......................... 160
Formal Assessment Tools ............................... 161
Informal Assessment Processes .......................... 162
Closing Thoughts: Emergent Literacy in the Pre-Kindergarten Years ...................... 163
Online Companion Materials ....................... 163
Knowledge and Skill Assessment .................... 164
References .............................................. 164
Appendix 4.1: Technology Resources  Elaine A. Cheesman .... 167

Chapter 5 Alphabet Knowledge: Letter Recognition, Letter Naming, and Letter Sequencing .... 171
Kay A. Allen and Graham F. Neuhaus

Learning Objectives ....................................... 171
Role of Letter Recognition in the Reading Process .............................................. 172
Letters—The Building Blocks of Literacy ............................................... 172
Letter Names—The Stable Property .................................................. 172
Letter Names—Catalysts for Learning Letter Sounds ........................................ 173
From Individual Letters to Letter Sequences .................................................. 174
Letter-Name Knowledge Predicts Reading Achievement ..................................... 175
Letter Recognition and Naming—The Need for Automaticity ..................... 176
Letter Recognition and Naming—The Need for Differentiated Instruction ............. 177
Letter Recognition and Naming—Reversals ............................................... 178
Considerations for Instruction .................................................. 179
Principles of Effective Instruction ............................................... 180
Activities for Teaching Letter Recognition .............................................. 181
Materials for Instruction .................................................. 181
Activities for Developing Letter Identification, Naming, and Sequencing Skills ........ 184
Games to Reinforce Letter Identification, Naming, and Sequencing Skills .......... 191
Activities for Developing Alphabetizing Skills ........................................ 193
Closing Thoughts: Building Alphabet Knowledge ........................................ 197
Online Companion Materials .................................................. 198
Knowledge and Skill Assessment ............................................... 199
References .............................................. 200
Appendix 5.1: Technology Resources  Elaine A. Cheesman .... 204

Chapter 6 Teaching Phonemic Awareness .......................................... 205
Lucy Hart Paulson

Learning Objectives .............................................. 205
Phonemic Awareness Within Phonological Processing Abilities .......................... 206
Phonological Processing .............................................. 207
Phonological Representation .............................................. 209
### Table of Contents

**Phonemic Awareness Foundations for Decoding, Spelling, Vocabulary, and Fluency**
- Phonics .......................................................... 210
- Spelling ........................................................... 210
- Vocabulary ....................................................... 211
- Fluency ............................................................ 211
- Causal Connections of Phonemic Awareness ................. 212

**What Is a Phoneme?** ........................................... 212

**Phonological and Phonemic Awareness Components and Developmental Sequences** ................................................. 212
- Phonological Awareness Components on the Linguistic Hierarchy ............................................. 213
- Development Along the Hierarchy ................................. 216

**Development of Simple to Complex Phonological and Phonemic Awareness**
- Rhyme Awareness Development .................................. 216
- Syllable to Phoneme Awareness With Blending and Segmenting ............................................. 219
- Complex Phonemic Awareness Skills ......................... 220

**Phonemic Awareness Skill Expectations According to State Standards** .................................................. 220
- Early Learning Standards ........................................... 221
- State Standards ..................................................... 221
- Phonemic Awareness as a Predictive Indicator of Literacy Development ........................................... 221

**Phoneme Characteristics** ....................................... 223
- Vowel Phonemes of Standard American English .......... 224
- Consonant Phonemes of Standard American English ..... 225
- Phonemes in Written Language .................................. 228

**Assessing Phonemic Awareness** .................................. 229
- Screening and Progress Monitoring Procedures ............ 229
- Progress Monitoring ................................................. 231
- Screening and Progress Monitoring Tools ..................... 231
- Diagnostic Procedures and Available Tools .................. 232

**Instruction in Phonemic Awareness for Prevention and Intervention** .................................................. 233
- Tier 1 to Tier 2 Instruction and on to Tier 3 Intervention .................................................. 234
- Rhyming Instruction ................................................. 238
- Segmenting and Blending Instruction ......................... 240
- Higher Level Manipulation Tasks ................................. 242
- Programs for Teaching Phonemic Awareness .................. 244

**Closing Thoughts: Phonemic Awareness and Literacy** .......................................................... 246

**Appendix 6.1: Technology Resources**

---

**Section III** Beginning Reading/Literacy Skills

**Chapter 7** Assessment of Reading Skills: A Review of Select Key Ideas and Best Practices ............. 258

*Larry E. Hess and Eileen S. Marzola*
Contents

Learning Objectives ......................................................... 258
Basic Measurement Concepts and Statistics for Standardized Assessment ........................................... 259
  Reliability and Validity .................................................. 259
  Norms ..................................................................... 260
  Ethics ................................................................... 261
Overview: Types of Assessment ........................................ 261
Interpreting Results: Some Common Pitfalls to Avoid ........................................................................ 262
Standardized Assessment Within the Response to Intervention Model ........................................... 264
  Inconsistent Results in the Real World ............. 264
Serial Assessment and Score Changes
  Over Time. ................................................................. 265
  Measuring a Response to an Intervention ........ 265
  Moving Between Tiers ................................................... 267
Importance of Early Screening and Intervention .............................................................................. 267
  Using Screeners in School Settings .................. 267
  Screening Instruments ................................................. 267
  Consequences of Delaying Intervention ............ 268
  Focus of Early Identification in Kindergarten
  Through Grade 3 .......................................................... 269
  Screening Through the Grades: Grades 4–12 ... 270
Underlying Deficits Associated With Reading Difficulties ............................................................... 271
Technology-Enhanced Screening and Progress Monitoring Systems ................................................. 272
Role of Comprehensive Assessments ............................................................................................... 272
Skills Commonly Measured on Standardized Assessments ............................................................... 277
  Phonemic Awareness ................................................. 277
  Rapid Automatized Naming and Rapid Alternating Stimulus ....................................................... 278
  Nonsense Word Reading ............................................. 278
  Word Identification ....................................................... 278
  Reading Comprehension .............................................. 279
Role of Nonstandardized Assessments in Reading Instruction ............................................................. 280
  Formative and Summative Assessment ............ 280
Curriculum-Based Measures .............................................. 281
Sources for Tests ................................................................. 281
Formative Assessment in Multisensory Language Programs ............................................................ 282
  Building on Multisensory Language Instruction
  Benchmarks ................................................................. 282
  Informal Reading Inventories ............................... 283
Closing Thoughts: Best Practices for Assessment and Recommendations for Further Research ........ 284
Online Companion Materials ............................................. 284
Knowledge and Skill Assessment ..................................................................................................... 285
References .................................................................... 286
Appendix 7.1: Online Resources for Assessment ............................................................................. 292

Chapter 8  The Role of Executive Function in Literacy
Instruction .......................................................... 294
Monica Gordon-Pershey

Learning Objectives .............................................. 294
Executive Function, Defined and Described ................. 295
  Executive Function and Academic Learning ............... 297
  Role of Language in Executive Function ................. 298
The Two Domains of Executive Self-Regulation:
  Metacognitive and Social Emotional ....................... 300
  Metacognitive Domain ........................................ 300
  Social-Emotional Domain .................................... 300
  How Language Mediates the Two Domains of
  Executive Function ........................................... 301
Characteristics of Students Who Require Assessment
  of Executive Function and Language Performance ........ 302
    Students With Deficits in Attention ................... 302
    Students With Specific Learning Disabilities .......... 303
    Students With Language Disorders .................... 304
Assessing Executive Function in the Context of
  Assessing Other Abilities .................................... 311
    Psychometric Testing of Executive Function .......... 312
    Assessing Executive Function in the Context of
    Language, Literacy, and Academic Testing ............. 313
Improvement of Executive Function in the Context
  of Learning Language, Literacy, and/or Academics ...... 319
    Language in Use During the Performance of
    Executive Function .......................................... 319
    Facilitating Students’ Self-Regulated, Language-
    Based Learning Behaviors ................................ 321
  Executive Function Toolbox .................................. 325
Closing Thoughts: Executive Function in Literacy
Instruction .......................................................... 327
Online Companion Materials .................................. 328
Knowledge and Skill Assessment .............................. 328
References .......................................................... 329
Appendix 8.1: Technology Resources  Elaine A. Cheesman  .... 336

Chapter 9  Teaching Reading: Accurate Decoding ............... 338
Suzanne Carreker

Learning Objectives .............................................. 338
The Knowledge Base: The Role of Decoding ................. 339
  Decoding Strategies .......................................... 339
  Teaching Decoding Through Structured Literacy
  Instruction .......................................................... 342
  Difficulty With Decoding for Readers With Dyslexia ...... 344
Practice: Teaching Sound–Symbol Correspondences ....... 345
  Building a Solid Foundation for Sound–Symbol
  Correspondences ................................................. 346
  Teaching Orthographic Patterns .............................. 349
  Introducing a Letter ............................................ 349
  Teaching Blending ............................................. 353
  Strategies for Improving Accuracy .......................... 354
Chapter 10  Teaching Spelling ........................................ 389

Suzanne Carreker

Learning Objectives ............................................. 389
The Distinctiveness of Spelling ............................... 390
Spelling Development ........................................ 391
Good and Poor Spellers ..................................... 393
Knowledge Needed for Spelling Proficiency ........... 395
  Phonology .................................................. 395
  Orthography .............................................. 398
  Morphology ............................................... 401
  Word Origins ............................................. 401
How Spelling Errors Inform Instruction ............... 402
  Rubric Score of 0 ....................................... 404
  Rubric Scores of 1 or 2 ............................... 405
  Rubric Score of 3 ....................................... 406
  Rubric Score of 4 ....................................... 414
Irregular Words ................................................ 414
Spelling Instruction .......................................... 415
  Small Group Spelling Instruction ......................... 415
  Whole Group Spelling Instruction ......................... 415
Spelling Instruction for Students With Dyslexia ....... 417
Strategies and Techniques for Spelling Instruction ... 420
Spelling Homophones .......................................... 425
Closing Thoughts: Teaching Spelling ..................... 425
Online Companion Materials ................................. 426
Knowledge and Skill Assessment ......................... 426
References ..................................................... 427
Appendix 10.1: Technology Resources  Elaine A. Cheesman ... 431
Chapter 11  Multi-Modal Handwriting Instruction for Pencil and Technology Tools ............................................. 435
Beverly J. Wolf and Virginia Wise Berninger

Learning Objectives ............................................. 435
A Brief History of Handwriting Instruction .................... 436
Why Handwriting Instruction Matters: Research Lessons ..................................................... 437
How to Teach Handwriting: Methods Informed by Teaching and Research ............................................. 439
  Developmental Stages of Learning Handwriting ........ 440
  Providing Instruction Informed by Writing Development ...................................................... 441
  Multi-Modal, Structured Language Approach to Handwriting ............................................. 442
  Instructional Guidelines for Multi-Modal Handwriting Instruction ............................................. 442
  Teaching Letter Formation ..................................... 444
  Instruction Not Related to Letter Format Formation for Optimizing Handwriting ................ 450
  Handwriting Instruction for Students With Specific Learning Disabilities ..................................... 454
  Educating Hybrid Writers ............................................. 456
  Technology .......................................................... 457
    Voice Recognition Software ..................................... 458
    Word Prediction Software ....................................... 458
    Tablet PC and iPAD Apple Software ......................... 458
  Closing Thoughts: Teaching Handwriting ..................... 459
  Online Companion Materials ............................................. 459
  Knowledge and Skill Assessment ................................. 459
  References .......................................................... 460
  Appendix II.1: Representative Instructional Resources for Educating Hybrid Writers ..................... 465

Chapter 12  Fluency in Learning to Read: Conceptions, Misconceptions, Learning Disabilities, and Instructional Moves ............................................. 467
Katherine Garnett

Learning Objectives ............................................. 467
What Is Fluency? ..................................................... 467
  Fluency As an Aspect of the Reading Growth Continuum ...................................................... 468
  Reading and Reading Disability: Building a Reading Brain ...................................................... 469
  From Early Notions of Reading Fluency to Current Constructs ...................................................... 472
Expressiveness, Fluency, and the Comprehension Connection ...................................................... 477
  Reading as Listening—A Possible Key ...................................................... 478
  From Listening to Listening ...................................................... 479
How Great a Problem Is Lack of Fluency? ......................... 479
  National Assessment of Educational Progress ...................................................... 480
  National Reading Panel ...................................................... 481
  International Dyslexia Association’s Knowledge and Practice Standards ...................................................... 481

Chapter 20  Instruction for Older Students With a Word-Level Reading Disability

Barbara A. Wilson

Learning Objectives ........................................ 757
The Prevalence of Word-Level Deficits ................... 758
The Challenges of Having a Word-Level Reading Disability ........................................ 758
Areas of Difficulty ........................................ 759
Interventions: It Is Not Too Late .......................... 759
Assessment to Determine Needs ........................... 760
Instruction for Students With Word-Level Deficits .......... 762
Accuracy and Automaticity of Single-Word Reading .... 763
Fluency ................................................ 772
Vocabulary, Background Knowledge, and Comprehension ........................................ 777
Other Considerations ........................................ 779
Provide Successful Classroom Practices .................. 780
Address the Needs of English Language Learners ....... 780
Develop Students’ Belief in Their Potential ................ 781
Prepare Teachers in Word-Level Instruction ............... 783
Closing Thoughts: Teaching Older Students Who Struggle With Word Reading ................. 784
Online Companion Materials ................................ 785
Knowledge and Skill Assessment .......................... 785
References ................................................ 786

Chapter 21  Working With High-Functioning Adults With Dyslexia and Other Academic Challenges

Susan H. Blumenthal

Learning Objectives ........................................ 794
Emotional Repercussions ................................... 795
Evaluation and Assessment .................................. 796
Educational Memories ....................................... 798
Bobbie ........................................ 798
Lana ................................................ 799
Contents

Derek .................................................. 799
Mark .................................................. 799
The Most Common Needs of High-Functioning Students With Dyslexia and Other Academic Challenges ........ 800
Janet .................................................. 803
Roy .................................................. 806
Evan .................................................. 809
Closing Thoughts: Working With High-Functioning Adults With Dyslexia ........................................ 812
Online Companion Materials ................................ 812
Knowledge and Skill Assessment .................................. 812
References ................................................................ 813

Glossary .............................................................. 815

Robin Anderson Singer

Index .............................................................. 849
